

Dear user,

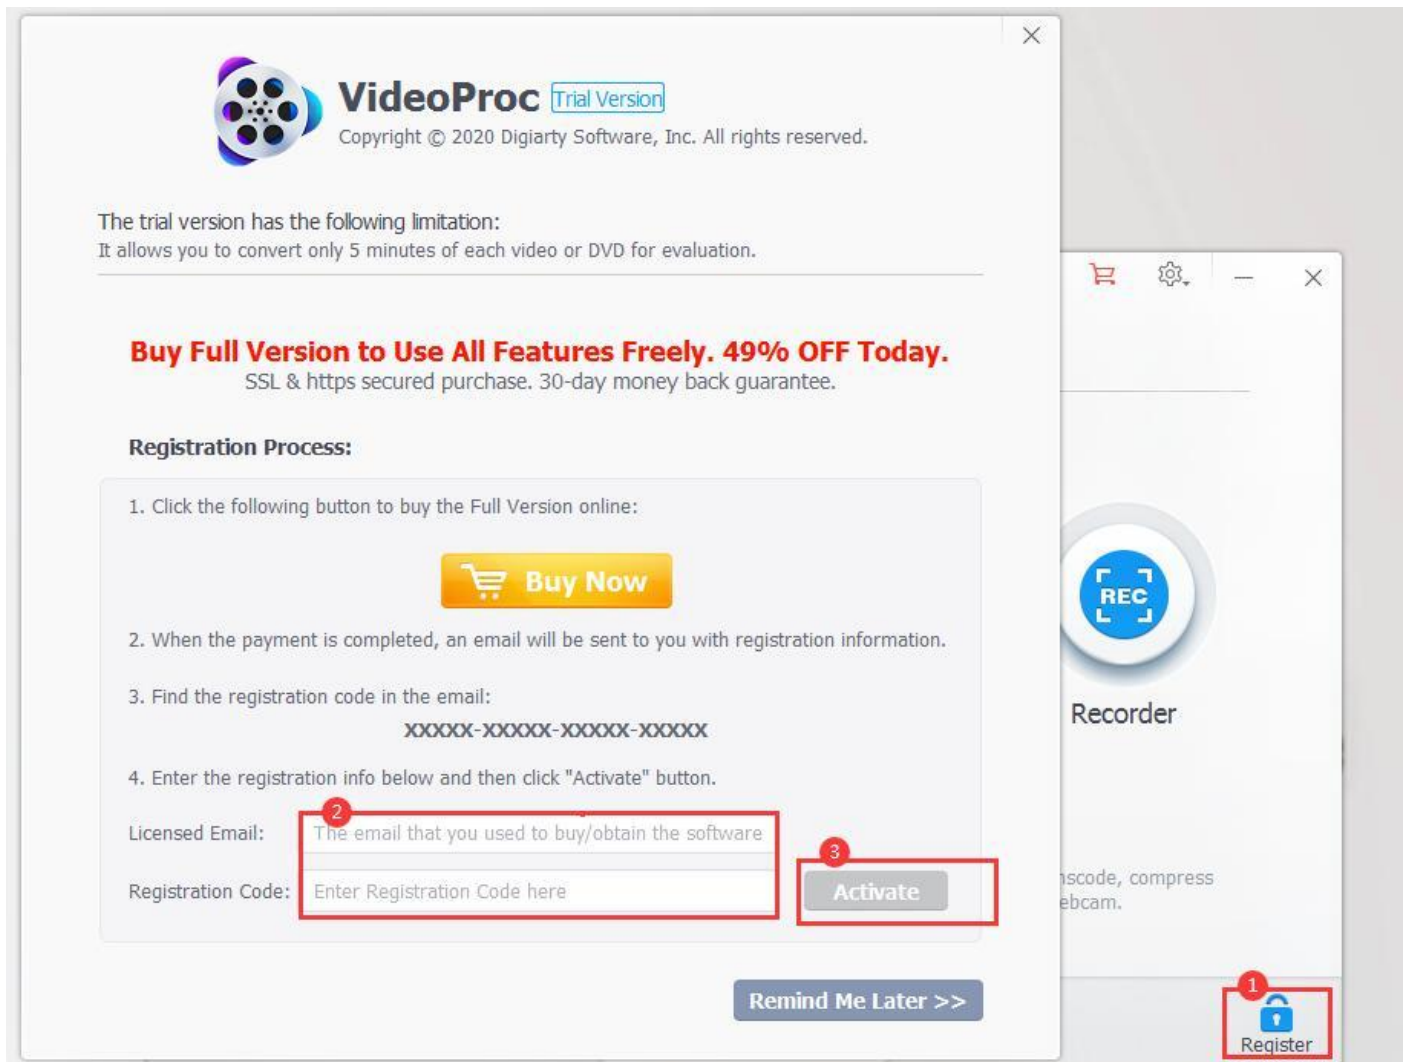

Thank you for joining our giveaway.

Below is the guide for you to activate the Licensed Copy of VideoProc.

Step 1: Install the setup file and run it on your computer. Then you will see the main interface as below.

Step 2: Click "Register" button in the toolbar. You will get the following interface.

And then please:

- a. enter your valid email to guarantee that you can enjoy the full features.
- b. paste your license code and click Activate.

Finally, you will get a prompt message to confirm that you have successfully registered the software.
